Integrated Services, Inc. Announces SQLRx Support for Microsoft SQL Server 2008
Award Winning Data Management Solution to be Showcased at PASS Community Summit 2008

DALLAS, TX — November 19, 2008 — Integrated Services, Inc. (ISI) today announced that its award winning SQLRx[®] WinPerf will utilize all new Microsoft SQL Server 2008 Extended events, SQL Trace events and columns, and dynamic management views to provide customers with in-depth expert analysis of SQL Server performance. SQLRx RemoteDBA service will monitor SQL Server 2008 policies, extended events, change data and new audit features. ISI will demonstrate SQLRx in the Data Platform ISV Village at the PASS Community Summit 2008 in Seattle November 18 – 21.

ISI's SQLRx for Performance and Capacity Tuning is the culmination of 30 years of proven "best practices" optimizing databases and system architecture. SQLRx uniquely collects and correlates both SQL Server and System performance data to quickly identify and decode performance bottlenecks.

"Our clients have benefited with substantial performance and capacity gains using SQLRx" said Dan Hooper, Principal and VP of Sales with ISI.

ISI was recognized for superior technology and innovation in Data Management Solutions in June at the Microsoft Worldwide Partner Conference. This award recognizes exceptional partners who support customers with their mission-critical applications. SQLRx offers deep diagnostic performance tuning and assessment of multiple Microsoft SQL Servers as well as expert RemoteDBA services to organizations of all sizes.

"We are excited to recognize Integrated Services as a company leveraging the standard performance metrics to help companies squeeze every last bit of performance out of their applications and servers," said Robert Deshaies, vice president for U.S. Partner Group at Microsoft Corp. "There is tremendous value in SQLRx, which provides tools to remove unnecessary spending and increased job satisfaction and performance."

About Integrated Services, Inc. & SQLRx

For over 20 years, ISI has been a recognized leader in delivering IT strategy and architecture solutions for Fortune 500 and high growth companies.
