Integrated Services, Inc. Achieves Third Microsoft Competency

ISI Adds Business Process and Integration to Its Certified Solutions

Dallas, TX — March 1, 2007 — Integrated Services, Inc. (ISI) today announced it has achieved the Business Process and Integration competency in Microsoft's Partner Program. This is the third Microsoft competency that ISI has earned as a Gold level partner. Other areas of expertise include Data Management Solutions, with a specialization in Business Intelligence (BI), and Information Worker Productivity (IW) Solutions.

The Business Process and Integration Competency is designed for Microsoft Gold Certified Partners with proven proficiency in implementing and deploying server-based portals for driving internet commerce and business applications using Microsoft tools and software. Delivering the high levels of reliability and availability needed for business-to-customer web sites requires not only great technology, but also the competency to plan, deploy, support and migrate those solutions. Microsoft Gold Certified Partners enrolled in this competency have demonstrated knowledge of, and experience with, the deployment of Internet-based solutions and infrastructure using Microsoft tools and software.

"Partners play a critical role in delivering solutions to our customers that complement their applications and services," said Robert Wahbe, General Manager of the Connected Systems Division at Microsoft Corp. *"The value of solutions competencies is that they allow Microsoft to deliver resources and training to partners, enabling them to better meet the needs of their customers."*

About Integrated Services, Inc.

For over 20 years, ISI has been a recognized leader in delivering IT strategy and architecture solutions for Fortune 500 and high growth companies in the greater Dallas/Fort Worth market. Prior to founding ISI in 1985, ISI's principal consultants spent long and successful careers at Andersen Consulting. With Big 6 disciplines, much of ISI's success is attributed to its depth in project and client management, made available to ISI clients with the flexibility and cost effectiveness of a smaller, regional firm. ISI has received numerous awards from its partners, including Marketing Excellence and Teamwork Awards from Microsoft. ISI is also the founding sponsor of the DFW SharePoint Users Group for Microsoft's Sharepoint technologies. To learn more about ISI, go to www.isi85.com.
