## **Microsoft Announces Formation of Dallas/Ft. Worth Sharepoint® User Group**

***Integrated Services, Inc. is the founding sponsor of new Dallas/Fort Worth User Group  
for Microsoft SharePoint Portal Server and Windows SharePoint Services***

**Dallas, TX – June 20, 2006** – Microsoft announced today that Integrated Services, Inc. is the founding partner of a new Dallas/Fort Worth user group for Microsoft SharePoint Portal Server and Windows SharePoint Services. Intended to be a meeting place for end-users, developers, and executives who may be interested in using SharePoint Technologies, the group's objective is to provide resources for success through monthly meetings and an on-line Knowledge Forum.

*“Integrated Services, Inc. is pleased to be the founding sponsor of the Dallas/Fort Worth SharePoint Users Group,” said Dan Hooper, principal, Integrated Services, Inc. “SharePoint is Microsoft’s fastest growing product and the Dallas/Fort Worth area has tremendous potential in automation and collaboration with SharePoint. This user group will help to facilitate that success.”*

The Dallas/Fort Worth SharePoint Users Group will be the only dedicated SharePoint user group in North Texas, and will be a place where SharePoint users can share best practices, gain exposure to certified third-party add-on products, and provide a connection point for market and SharePoint resources.

*“In today’s mobile workplace, it is becoming increasingly important to harness intellectual property, empower individuals with critical information, and do so in a timely and cost-effective manner,” said Microsoft’s spokesperson. “Microsoft SharePoint technologies provide our customers with the platform to do just that. The Dallas/Fort Worth user group will provide the local community with an excellent forum for exchanging ideas, discussions, and best practices.”*

Improving Enterprises, LLC, CorasWorks, K2 and KnowledgeLake Inc. have joined Integrated Services in sponsoring the new group. The meetings, held on a monthly basis, will take place at Microsoft’s Las Colinas office.
